

Clark Forklift Part

Clark Forklift Part - At present, there are at least 350,000 Clark lift trucks performing globally, and more than 250,000 in service in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 exclusive designs of forklifts, with components covering more than 120,000 particular components for all of its automated equipment. Your regional Clark Dealer is your complete source for availability of all your parts needs provided by Clark Totalift.

Clark's exceptional Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their clients and dealers in North America, and Changwon, South Korea, which handles their Asian sellers and customers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to offer the highest level of value and service to our users, Clark remains on the cutting edge when it comes to improving efficiency and benefiting performance.

Clark Totalift has a very impressive intercontinental support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling industry.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of refinement in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is at this time a customary feature on every forklift.

Clark has a unyielding goal to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be internationally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental restrictions, thus placing them in a prevailing market position.

Clark has preferred the particularly economical and advantageous structure of "Lean Production" for its assembly plants and application of resources. This structure was developed to acknowledge the most efficient approaches of manufacturing plant stewardship and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to perfect the proficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering program combines progressive product improvement and delivers improved customer support and service within the industry.
