

Meritor Part

Meritor Part - The Meritor Business is a premier international supplier founded upon 100 years of tradition of service and quality. Meritor specializes in integrated systems with various modules and components to the original machinery manufacturers and aftermarket equipment in the industrial and transportation trades.

Meritor prides itself in the company's unique energy and thinks that this particular energy contributes to their competitive advantage within the global operations. The business values all their clients and wants to ensure their success while anticipating their various needs. Meritor starts with a philosophy that values diversity of people and their broad thought processes. Operating in 19 nations and hiring more than 11,200 individuals, Meritor encourages innovation and collaboration amongst a team of knowledgeable professionals.

By just employing future focused workers, Meritor strongly feels these top-caliber people would be able to rapidly get used to to changing surroundings and demonstrate the commitment and performance required in order to achieve results in the competitive materials handling business. The business empowers their teams to make sound business decisions so as to enhance the overall success of the company. In return, Meritor offers their staff different chances for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This includes axles, drivelines, suspension and braking systems designed for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They opened a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the needs of their global engineering staff.

The Quality team at Meritor is a dynamic and customer-focused group which is dedicated to ensuring optimum growth at their aftermarket distribution facilities and production plant that are located on 5 continents and in 19 nations.

They have their supplier network that is specifically located to support the growth of the business. Each regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making within each part of the business. The DFSS or otherwise referred to as Design for Six Sigma ensures product reliability in each and every region. The team is likewise comprised of transactional Green Belts who apply Six Sigma tools to business techniques and implement lean techniques.
