

Spreader Bar for Forklift

Spreader Bars for Forklift - Proudly operating ever since nineteen seventy four, ELME Spreader AB is the largest independent spreader company around the globe. They have been a dedicated producer of spreaders designed for different applications like the swap bodies, trailers and handling of containers.

Engineering is done in house by way of making use of the most up-to-date FEM tools and CAD systems. The ELME business now has over 125 employees. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-around the world.

The ELME product range offers spreaders meant for different container and trailer handling operations. Several of their inventory include: Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift Trucks, Straddle Carriers in addition to a huge variety of attachments.

ELME production and manufacturing is done in a highly automated purpose built factory. In the year 2008, they created over one thousand one hundred fifty spreaders by means of utilizing high quality elements so as to guarantee reliability and excellent standards while offering competitive prices. Major features of ELME consist of design simplicity, market reaction and ground-breaking modular spreader concept.
